The Know How

Fake Bake Original Self-Tan Lotion was the very first self-tan lotion to showcase a cosmetic guide color. This patented triple tan formula, which contains naturally-derived tanning agents DHA, Erythrulose and DMI, enhances the natural pigment of your skin ensuring a streak-free natural tan for every skin tone. Not only that but this bestseller boasts an easy-glide formula, which enables this product to be applied with both ease and confidence. If a darker tan is desired, Original can be re-applied over consecutive days, however one application is usually enough. Includes application gloves and step-by-step application advice.
