Description

The Know How

Amplify is a multi-purpose skin-enhancing lotion with a unique formula that works in three ways to INTENSIFY the color and life of your tan using added tanning actives to help create a streak-free 'golden glow'. It contains a natural plant-based agent to optimize and BOOST your skin's natural tanning process by encouraging melanin production. Moisturizing and illuminating, it also helps PERFECT skin by creating a luxuriously radiant, smoother, more youthful appearance. This lightweight, non-greasy formula dries quickly and invisibly on the skin and does not clog pores.

Tanning Perfection Directions

- For best results apply daily as a face and body lotion
- For maximum boost to a natural tan,
- Color will develop gradually
- Blend thoroughly and evenly on clean skin
- Use sparingly over elbows, hands, knees and feet
- Wash hands immediately after use
- Continual use will allow color to build and enable you to maintain a beautiful, natural looking tan.
- Can also boost a natural tan - use the lotion the week prior, during and then the week following sun exposure.
