Description

Alila's Kabuki makeup brush has a short stem and dense bristles. The brush head is flat. The bristles are synthetic bristles with a bamboo stem.

Alila's kabuki brush is used to apply loose powdered make-up, foundation or bronzers on the face. Because of its design, the brush blends powdered make up evenly on the skin and creates a very natural looking coverage. The brush's popularity is also due to the convenience of being able to replace a series of brushes for example you foundation, powder and blush brush.

This is also a very convenient brush to apply self tan with to create a more natural application.
