

Pre-base

Stock: In Stock

Call for Price: 051 447 5571

Description

Pre-base is applied in small before your foundation application, to smooth the skin by reducing fine lines and pores, as well as create a smooth layer for your makeup to adhere to, thus helping you apply base more evenly.

Pre-base is one of those beauty secrets that can make a big difference to the look and wear of your makeup!

Useful Info:

Pre-base helps makeup stay on longer as well as hydrates dry skin, it contains vitamin E and vitis vinifera with both healing and soothing properties as well as antioxidants.

Useful Tip

The silicone in the pre-base assists with filling out fine lines, so don't be shy around those problem areas.
